Engineering Fun Days

- Rob and Mike are about to earn their Black Belts!

Important 2012 Milestones

- Open Sourced Big Data:
  - http://www.pentaho.com/press-room/releases/48/pentaho-open-sources-big-data-capabilities-to-further-fuel-widespread-adoption

- Launched Pentaho IRC Office Hours:
  - http://wiki.pentaho.com/display/COM/IRC+Office+Hours

- Started Transition to GitHub:
  - https://github.com/pentaho/

- Opened up professional documentation:
  - http://infocenter.pentaho.com

pentaho

SUGAR Update

- Major Enhancements
  - New Repository Implementation (JCR)
  - Datasource Management
  - Action Based Security
  - Administration Perspective vs. Admin Console
  - REST APIs
  - New Scheduling Implementation

- Release Goal: April 2013

pentaho

- A collaboration between Pentaho and WebDetails
- Why?
  - Easier Access to Plugins
  - Adds more capabilities to the Suite
  - Builds a community in the product
  - Give community insight into how people use Pentaho

- Delivery planned as part of 4.8 CE Release, Fall of 2012

To Learn More…

- What are we working on right now?

http://wiki.pentaho.com/display/PMOPEN/Product+Management

- How can I contribute?

http://wiki.pentaho.com/display/COM/How+to+Contribute

The Challenge

- Think of three things Pentaho Engineering can do that will benefit the community
  - Ideas like
    - IRC Office Hours
    - Clarify Contribution Process
    - Better Developer Documentation

- Email me your ideas! wgorman@pentaho.com

- email - <u>wgorman@pentaho.com</u>
